BETTER PLANTS

God's first gift to man was a Beautiful Garden

VOL. VIII

NEW CROPS ISSUE—1930

NUMBER 4 Y

TREE PEONIES—For Autumn, 1930

Lately the "Flower of the Emperor," Tree Peonies are now becoming available for American gardens. The plants develop into large bushes, bearing numerous blooms borne on hardwood branches. They are comparable to the lilac in hardiness and excel Herbaceous Peonies in size, texture, and color-range.

CULTURE.—Once established, Tree Peonies are as hardy as lilacs. For the first winter they should be mulched heavily with clean materials. South and east exposures are the best locations, and none except mature,

established plants should be exposed to the north and west winter winds. Keep watered and cultivated. Plant deeply. Plants gradually grow into bushes 3 to 6 feet in height and spread, bearing, in many cases, more than a hundred blooms. Tree Peonies bloom from two to three weeks earlier than herbaceous varieties and blooms are larger and more beautiful. Petals in most cases resemble crepe paper, and colors are clear and intense.

Planting and shipping are done during August and September.

Tree Peonies—Ready for Fall Planting

Banksi. Double; pink. Vigorous and prolific. 12-18", \$6 each.

Moutan. The wild Tree Peony of Thibet. Single; red. Vigorous grower, and free blooming. Early; blooms with tulips. 12-15", \$6 each.

Moutan Specimens. A limited number of 7-year-old, bushy specimens in 18" size at \$12 each; 5 or more at \$10 each.

COLLECTION A. Banksi and Moutan (value \$12)
One of each for \$10

Junior Collection

2-yr.-old Tree Peonies in random and, possibly, duplicate assortment at \$3.50 each; 5 or more at \$3 each. No warranty as to assortment, except that all *Tree Peonies* are rare and beautiful.

Royal Collections

We have many varieties of rose, pink, flesh and white Tree Peonies, but not many plants of any one variety. They are all fine and choice, however, and we offer them in "Collections, Farr Selection" as below. The plants have already bloomed in our nursery.

	3-yr.-old	2-yr.-old
(a) 2 Plants in 2 varieties for.....	\$20.00	\$15.00
(b) 3 Plants in 3 varieties for.....	27.00	20.00
(c) 4 Plants in 4 varieties for.....	36.00	27.00
(d) 5 Plants in 5 varieties for.....	45.00	35.00

N.B.—These are the finer varieties which would sell at much higher prices if they were definitely named and selected in advance.

Unusually Complete Collections of French Hybrid Lilacs and Flowering Crabs

Why French Lilacs?

A common or old-fashioned Lilac (*Syrin a vulgaris*) will usually stand for years, and almost fill out the space assigned to it before blooming, but a French hybrid will bloom freely in the 18 to 24-inch size and regularly afterwards, frosts and culture permitting. There is also the established argument that when space is limited one should have the best, for it takes up no more room and costs no more to maintain than does the less desirable Lilac.

French Lilacs in Sizes Larger Than Ordinary

	Each
Adelaide Dunbar. Double; red. 2-3'	\$3 00
Alphonse Lavallee. Double; blue-purple. 2-3'	2 00
Belle de Nancy. Double; rose. 2-3'	2 50

30-day terms or 5 per cent discount for cash with order.

The new Hybrid Lilacs (Leon Gambetta and President Grevy) that I got in May, 1924, from your Company are sure the finest Lilacs that I have ever seen in any Lilac collection. I have 32 different kinds of Hybrid Lilacs that I have gotten from your Nurseries, and they have all been very fine.—
DR. ALFRED N. HAGEN, Nebraska, May 14, 1929.

Farr Selection of Lilacs

No. 1. Four French Lilacs in 4 named varieties, 2-3', Farr selection from preceding list, for \$5.

No. 2. Eight French Lilacs in 8 named varieties, 2-3', Farr selection from preceding list, for \$10.

GUARANTEE. (a) Total value of plants received will exceed catalog value by at least 20 per cent.

(b) Plants are returnable if not satisfactory when received.

30-day terms or 5 per cent discount for cash with order.

Flowering Apples

The Flowering Apple is referred to as "Queen of the Garden" by the Arnold Arboretum and should be first on the list of flowering trees used about the home or in the garden. It is of year-round utility. First, the gorgeous masses of bloom, then the shiny, glossy, green, clean bank of foliage, followed by clusters of small, colorful fruit, attractive to the birds and convertible into delicious preserves.

When to Plant. Crabs or Flowering Apples are moved safely in fall, after frosts, and until ground freezes permanently.

Arnoldiana. Semi-double; pink. 4-5', \$2.50 each.

***Atrosanguinea.** Single; red, fading pink. 5-6', \$3 each.

Floribunda. Single; pink, fading white. 5-6', \$2.50 each; 5 or more, \$2 each.

***Bechtel's.** Double; pink. 3-4', \$2 each; 5 or more, \$1.50 each.

Parkmani. Double; dwarf; pink. 5-6', \$2.50 each.

***Purpurea.** Red foliage, flowers, and fruit. 5-6' specimens, \$3 each.

Sargent. Dwarf; white. 3-4', \$2.50 each.

***Scheideckeri.** Semi-double; pink. 5-6', \$3 each.

Spectabilis Rosea. Double; pink. 4-5', \$3 each.

Toringo. White; low-growing. 4-5', \$3.50 each; 5 or more, \$3 each.

"Chinese Crab" Collection

One each of varieties marked * (value \$11) as a Collection, for \$10, complete.

Less 5 per cent for cash with order, or 3' 0 days "net."

Irises at 5 cts. and 10 cts.

if you order NOW for shipment during Iris-planting season—July 10 to September 15—we will ship during July and August unless otherwise specified.

No plants are easier to grow than Irises. No plants are more surely satisfactory, and no plants are more colorful. Moreover, no plants cost less for the pleasure returned. Fill your premises with self-sustaining and self-increasing color. Change the color-scheme periodically.

TERMS. Pay within ten days after plants are received. If you send cash with your order, you may deduct 5 per cent.

32 Popular Irises

10 cts. each, in lots of 50 or more of one kind; 25 or more of one kind at 12 cts. ea.; 5 or more of one kind at 15 cts. each.

Fairy. White, suffused blue
Florentina. Early; white
Germanica. Earliest dark blue
Mary Orth. Large; blue-violet
Rhein Nixe. White and blue
Sherwin-Wright. Golden yellow

Sale of Farr's Better Peonies, Fall, 1930

Odd Varieties and Novelties at a Half and a Quarter of Former Prices

You can afford to have our odd varieties and novelties in your garden at full catalog price, but we do not think we can afford to keep them, move them and handle them at double that price. Therefore, the time is here for a lot of mutually ideal business transactions.

We have selected 60 varieties which are to be closed out, not because they are poor, but because we still have so many "best varieties" which by themselves are quite a problem of culture, detail, and other overhead. In fact, most of the varieties included in the sale are rated above 80 per cent by the American Peony Society.

Here is the list which we will dispose of at little more than the actual digging and shipping cost; all 3 to 5 eye divisions, guaranteed true to name, and shipped subject to approval.

Sale Prices on Peonies

- 1 root of any variety for half the latest catalog price indicated.
- 3 roots of any one variety for the latest catalog price of one.
- 5 or more roots of any one variety, marked * at 40 cts. each, regardless of the catalog price. This applies only to varieties preceded by (*).

Collection Offers

- 1 root each of the 20 varieties from this list marked * (catalog value \$30), for \$12.50.
- 1 root each of 15 varieties, our selection from these 60, for \$7.50.
- 1 root each of 10 varieties, our selection from these 60, for \$5.

N.B.—Our selection will include a liberal number of \$2 to \$5 varieties. Roots will be named and labeled.

The prices quoted are from our latest catalog. You may deduct one-half during this sale. Example, Adelaide Hollis, catalog price \$3; sale price, \$1.50.

Abbreviations: E., Early; M., Midseason; E.M., Early Midseason; L.M., Late Midseason; L., Late.

***Adelaide Hollis.** Large; rosy white. Each L.M. \$3 00
***Admiral Togo.** Crimson-carmine. M. 1 50

Hemerocallis for Fall, 1930
 Including H. S. and New Hybrids

Citrina Hybrids. Chinese Day Lily. Lemon-colored; May-Sept.; 48-60". Tall and large; longest bloomer; hardy. Vigorous and prolific. A group of plants will form a permanent and natural colony for continuous bloom and cut-flowers. 3 for \$1; 5 or more 25 cts. each; 25 or more 20 cts. each.

Cinnibar. (Stout.) Rich but delicate shade of brownish red; July; excellent growing habit; up to 18 flowers on one 32" stem. Bloom spreads 5" and recurving. Throat is clear cadmium-yellow; outer half of petals sprinkled and striped. Vinaceous; rufous, sepals solidly colored. Sepals and petals strongly gold-glistening. \$3.50 each.

Golconda. (Farr, 1924.) Chrome-yellow; July, Aug.; 40-60"; large (6" across). \$1 each; 5 or more 80 cts. each; 25 or more 75 cts. each.

Golden Bell. (Wallace.) Medium grower; very large, full flowers and recurving petals. Foliage about half as tall as the flower-stems and many buds to a stem. One of the clear yellow types. \$2 each.

Mandarin. (Farr, 1924.) Lemon-yellow; July, Aug.; 48". Bell shaped; recurved. \$1 each; 5 or more 80 cts. each; 25 or more 75 cts. each.

Mikado. (Stout.) Foliage medium, coarse, ascending, curving. General level about 20-24". Flower-stems rise about 10" higher. Leaves remain freshly green and tidy until heavy frosts. Flowers 5" spread. Segments fairly broad, of good texture. In the middle of each petal there is a large blotch of dark and almost purplish red in sharp contrast to rich orange of rest of flower. Season, midsummer. \$3.50 each.

Ophir. (Farr, 1924.) Dark golden yellow; July, Aug.; 36-42". Extremely large blooms (5" across). Might be called a hardy form of Aurantiaca Major. \$1 each; 5 or more 80 cts. each; 25 or more 75 cts. each.

Sovereign. Broad-petaled Day Lily. Chrome-yellow; June, July; 30". Very colorful. 3 for \$1; 5 or more 25 cts. each; 25 or more 22 cts. each.

Wau-Bun. (Stout.) Uniform cadmium-yellow, outer half over-cast delicate fulvous red; June 20 to July 25; 36". Petals are large and broad; spreading rather than recurving. Freely curving contour of petals is unusual and distinct among Hemerocallis. Foliage dark green; compact, erect, with bend at almost 30". Flower surmounts foliage by 6". \$3.50 each.

Vesta. (Stout.) Semi-dwarf; June 20 to July 25; 20". Deep, uniform orange-yellow with faint traces of orange-red; glistening gold sheen. Broad overlapping petals. Foliage stiffly and strongly arched. Flower-stems about 8" above foliage level. Blossom spread, 42". \$3.50 each.

GARDEN "DUCO"

Iris Sherwin-Wright at \$35 per 1000

It is possible to change and beautify home interiors quickly with paint. It is equally possible to change the character and color-scheme of a garden, with frequency, speed, and economy by using Irises. In a recent Iris lecture it suddenly occurred to us that Irises were "Duco" for the garden.

Right now we offer IRIS SHERWIN-WRIGHT, deep golden yellow, at 5 cts. each in lots of 50 or more; 4 cts. each in lots of 100 or more; 3 1/2 cts. each in lots of 250 or more. Clumps containing 3 to 5 divisions at double these prices.

You can appreciate that the variety is extremely hardy and prolific or else we would not have so many—12,000, to be exact.

Roots are guaranteed to be top quality and to reach you in good condition. At the price, you can afford to use them liberally and profusely along walks, drives, foundations, terraces, pools, streams and steps, in shrub, evergreen, and perennial borders—wherever a splash of color, at low cost, would be practical—wherever many other varieties of plants will not thrive or survive. 100 for \$4; 1000 for \$35. If twelve customers order 1000 roots each the supply is gone, so act quickly.

LEFT-OVER TULIPS

It is difficult to prepare or predict Tulip left-overs as this issue goes to press. Many varieties of Tulips are now unobtainable at any price, and the demand is rapidly absorbing our supply.

We are confident, however, that there will be various odds and ends left over from our importation which we will gladly close out at reduced prices.

Write us if interested, and we will send you our "Left-Over" list during early November; or send for our Bulb Catalog and order now, at regular prices, with assurance of having order filled.

"20-TIMES-10" COLLECTION

From our Left-Over Tulips we will prepare this special Collection. We shall have only a few Collections to offer, and orders will be filled as received so long as the stock lasts.

200 Tulips in 10 varieties (20 bulbs of a kind) labeled and packed separately, for \$11.

100 Tulips in 10 varieties (10 bulbs of a kind) labeled and packed separately, for \$6.

Farr Nursery Co. WEISER PARK, PENNA.
